

wemi

## W E M I l i g h t

is the new italian trade-mark that signs the light. Wemi design and manufacture lamps, using a refined synthesis of precious elements and applying to one sophisticated public, who want an article where the person identifies himself and confer a great prestige to his house.

That's how the lamp becomes an furnishing's emotive article and excites very important sensations thanks to the use of leather, wood, glass, aluminium, velvet, valuable cloths, zircon "Swarosky" that introduces form and design innovative and in the meantime traditional. The metal parts have been galvanized as per as in goldsmith. In some models, the electric system is supplied with an electronic light changer using key control, incorporated memory and darkness individuation's led. The whole collection of wemi light's lamps is imagined, designed and produced completely in Italy by a solid and dynamic company that works with furnishing professionals for many years. The design is italian and the high qualified staff assure the detail's attention and the professional warranty.
