Mr. L u c a R u b b o is a new designer, who is asserting his personality and experience in the furnishing's sector made in italy.

He told: "the lighting 's sector is for me a glam, because the light has the power of definition for object's shapes that shown. I has always lived "the thing's light" with surprise almost childish attitude. My engagement and my pleasure is to create light's sources, which would be emotional and perceptible things. The light must arouse emotions to the person when he looks it .I would like that my work will be an element that increase the value of the purchaser's personality."
